Submission Worksheet

Course: IT114-003-F2024
Assigment: [IT114] Module 1 Getting Started
Student: Luke M. (ljm43)

Submissions:

Submission Selection

1 Submission [submitted] 9/13/2024 7:30:02 PM

Instructions

^ COLLAPSE ^

Overview Video: https://youtu.be/LQwyAhmNzoQ

1. Create a repository on github, use the format `ucid-course-section` as the repository name.
2. Make sure it's set to private
3. Go to Settings -> Manage Access -> Invite Collaborator -> Search for my ID **MattToegel** and send an invite; if your section has a grader do the same for their github username (refer to course announcements)
   1. **Note**: Once in a while the invite doesn't get created correctly and you'll need to resend it, keep an eye on the acceptance of the invite since this is required for further HW validations. A comment will be left on Canvas for the submission if the invite is missing at the time of grading).
4. From the terminal / command line create a new branch called **M1-GettingStarted**
5. Create a README.md file and add it to the branch
6. Fill in some basic details:
   1. Course/Section
   2. Your name (first is fine)
   3. Brief info about yourself you'd like to share
7. Hint after creating the file
   1. `git add README.md`
   2. `git commit -m "my readme file"`
   3. `git push origin M1-GettingStarted`
   4. Create a pull request from this branch (via github.com)
   5. Don't merge/close the pull request yet
8. Fill in the below deliverables.
9. Once finished, ensure it's saved and click the "Export" button.

10. Move the generated PDF into your local repository folder at any location of your choosing.
11. Do the following commands
    1. `git add .` (this will add all changes)
    2. `git commit -m "adding output file"`
    3. `git push origin M1-GettingStarted`
12. Go back to github and merge the pull request that was opened
13. Go to Canvas and upload the same PDF that you just downloaded and pushed to GitHub

Note: Having the submission saved and active keeps it eligible for grading.

ⓘ Details:

Should be at least a few sentences for full credit

⌄

☰ Task Response Prompt

Response:

I enjoyed learning alot about industry tools. I feel that becoming fluent in the tools of the trade is essential to sucsess. I learend about version control, and how the plugins we install to our IDE can change the way we work.
